How to get 5% tax =)

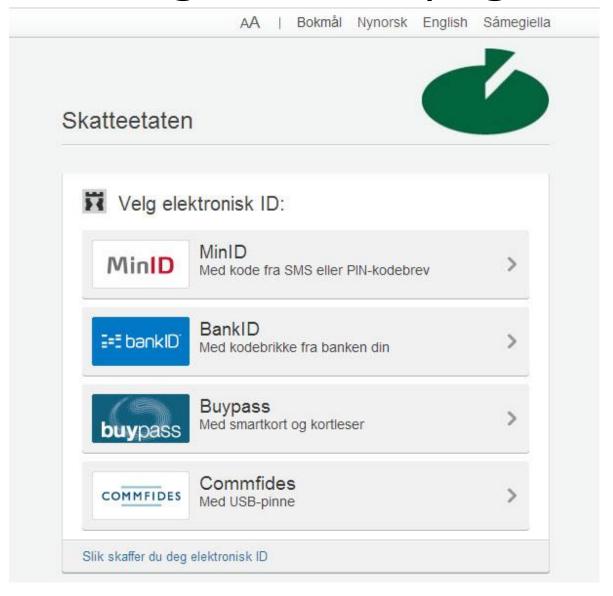

#### Go to

 http://www.skatteetaten.no/no/Skjemaer/Sok nad-om-endring-av-eller-krav-omskattekortforskuddsskatt/

 Then click on « Endre skattekort/forskuddsskatt elektronisk »

 If something is missing -> jonathan.nain@gmail.com

#### You get to this page:

 You can choose what you want to identify, but... I think you are not able to use the 3 last case (as I wasn't...)

So you must use the first.

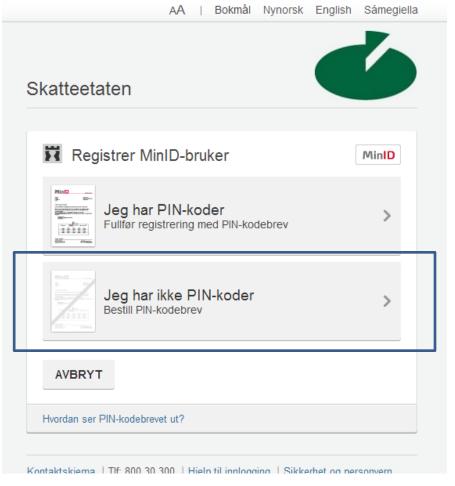

### You must register for the system

So click on « Register ny bruker »

# Click on the 2<sup>nd</sup> option as you may not have your PIN-koder (sent by post-mail)

(If you have the PIN-koder, go <u>there</u>)

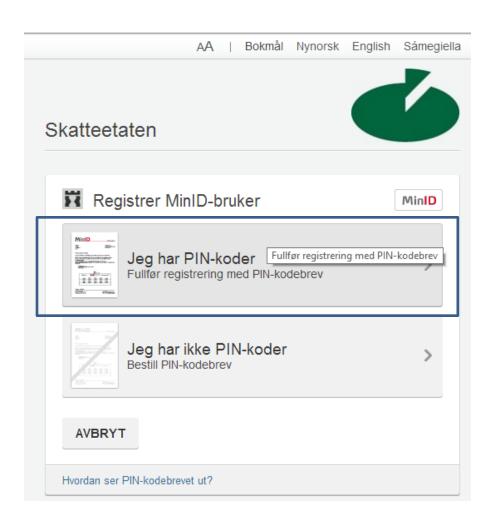

### Just set your number in the field

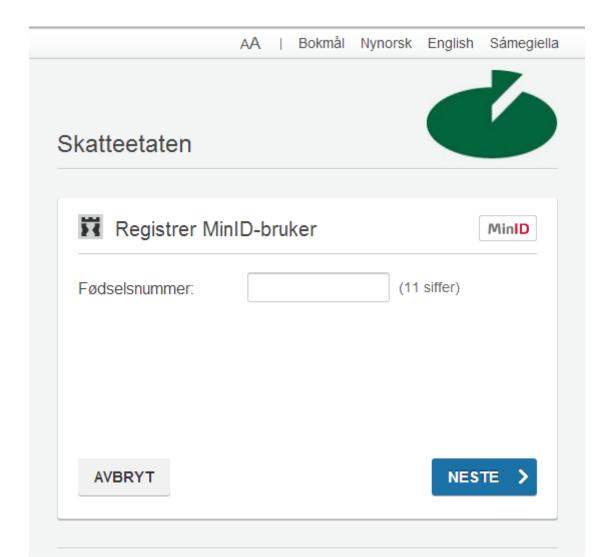

And then press « send meg PIN-kodebrev »

- The letter may take like 1 or 2 week to be in your letter box.
- Then you can finish and get your 5% card.

### Here you must have the PIN-letter.

#### Just fill-in the form

 They may ask you to enter a couple of codes (I don't really remember how many... may be 3 or 5...)

 Once you've given your codes, you can setup a password. And once your password has been setup you can continue.

#### Here.

# Once you have set your ID-number and your password you get this page

## After clicking this link you get this

Just enter the code they ask you

 Unfortunately, I do not have my ID letter at work so I can't make more from here.

 Sorry for that... I didn't thought I had to give again some codes... My bad... I'll finish it from home, before 20:00...
